### **Auburn Medical Community Enhanced by Outpatient Imaging Center**

(Auburn, Washington) Auburn Diagnostic Imaging Services- Merritt Building (ADIS) will open on June 2 providing imaging services in the heart of Auburn's medical community.

Located 2 blocks east of Auburn Regional Medical Center, in the Merritt Building, the facility will provide High field Magnetic Resonance Imaging (MRI) and Computed Tomography (CT) on state-of-the-art GE technology. Fluoroscopic and CT guided diagnostic and therapeutic spinal and musculoskeletal injections will be offered as an adjunct to pain management. Valley Radiologists, Inc. P.S. will provide imaging interpretation and management for the center. The imaging center will be open Monday through Friday, 8 a.m. to 5 p.m.

"A conveniently located outpatient imaging facility will make seeking medical attention that much easier for the residents of South King County," said Dr. Kenneth Reger, Valley Radiologists' ADIS Medical Director. "Valley Radiologists has worked with the Auburn community for over 30 years. We are excited to provide clinicians and patients with the best in imaging and customer service."

Same-day appointments, fax scheduling, and premier imaging are key elements in the outpatient environment. Fast and accurate consultation and reporting, as well as online access to reports for physicians improve efficiency and care of patients.

Valley Radiologists, Inc. P.S. currently provides imaging services in association with Auburn Regional Medical Center, Auburn MultiCare Health Center, Covington MultiCare Clinic, Kent MultiCare Clinic, Valley Diagnostic Imaging Services – Olympic Building, Valley Diagnostic Imaging Services– Medical Arts Center, Valley Breast Center, and Valley Medical Center. The group is made up of 25 board certified radiologists.
